2. Join the Journal of Medical Microbiology's Early Career Microbiologists Board of Reviewers:

About the Journal of Medical Microbiology:

The Journal of Medical Microbiology is the go-to interdisciplinary journal for medical, dental and veterinary microbiology, at the bench and in the clinic. It provides comprehensive coverage of medical, dental and veterinary microbiology and infectious diseases, welcoming articles ranging from laboratory research to clinical profiles, including bacteriology, virology, mycology and parasitology.

ECM Reviewer Role:

PhD students and post-docs already perform many high-quality peer reviews under the guidance of their supervisors but may not gain recognition for doing so. Members of the ECM Board of Reviewers will be acknowledged as part of the Journal and, as with all reviewers for the Society's journals, have the option to have their review activities deposited in their **ORCiD** records.

ECM Reviewers will be invited by the editorial board to review papers with support and guidance from their selected Reviewer Mentor.

Person specification:

If you are interested in joining the ECM Board of Reviewers, you will need:

- To be working in medical microbiology, with expertise relevant to one or more of the Journal's sections: Antimicrobial Resistance; Clinical Microbiology; Disease, Diagnosis and Diagnostics; Medical Mycology; Microbiome and Microbial Ecology in Health; Molecular and Microbial Epidemiology; One Health – Emerging, Zoonotic and Environmental Diseases; Pathogenesis, Virulence and Host Response; and Prevention, Therapy and Therapeutics;
- To be completing a PhD (or equivalent) or be undertaking post-doctoral research;
- Have the support of your PI or another microbiologist who is willing to act as your Reviewer Mentor. Your Reviewer Mentor will read your reviewer reports before you submit them to the Editor, and will provide support and guidance when completing your review.

Equal opportunities:

The Microbiology Society is committed to creating an inclusive culture that supports equality and diversity and fully reflects both its membership and the global microbiology community. The Society seeks to actively encourage all practices that reflect a diverse society.

Application:

To apply, please send your CV to **e.arnold@microbiologysociety.org**, copying your Reviewer Mentor on the email. This scheme is ongoing however we encourage you to apply before the **15th of January 2027.**
