

## Building Communities Committee

### 1. Terms of Reference

**Purpose:** Reporting to Advisory Council, the Building Communities Committee is responsible for driving content themes for events, journals, and other activities to support the Society's three main strategic objectives:

- 1. Through a better understanding of the diversity of our members, we will enable them to strengthen their existing relationships and gain access to new communities, unlocking the potential for international collaboration and global knowledge exchange.*
- 2. By harnessing local knowledge for worldwide impact, we will advance understanding of microbiology and champion the contribution made by microbiology, our members and their work in addressing global challenges.*
- 3. By recognising global differences in accessing opportunities at the Microbiology Society, we will build on existing strong financial and governance foundations to reinforce long-term sustainability and resilience through diversifying income streams, increasing efficiency and ensuring robust mechanisms for decision-making, monitoring and evaluation.*

The Committee will provide advice and expertise to Advisory Council and will be primarily responsible for overseeing the delivery of strategic objective one. The Committee will collaborate with relevant panels working groups and staff to ensure that activities delivered are in line with budget.

The Scientific Conferences Panel and Publishing Panel both report to the Building Communities Committee and are each chaired by one of the Committee co-Chairs. Some elected members on the Building Communities Committee may be asked to sit as supernumerary members of the Scientific Conferences Panel and Publishing Panel of the Society in order to create an adequate link between the Committee and these bodies.

The Society is committed to creating an inclusive culture that supports equality and diversity and fully reflects both its membership and the global microbiology community across all protected characteristics. The Society seeks to actively encourage all practices that reflect a diverse society.

By participating in Committee meetings, all Committee members agree to respect other members' opinions and give all present a chance to contribute. The co-Chair/Chair is

responsible for running the meeting, please support them to keep to time. Certain topics discussed will be confidential, therefore Committee members are asked to be mindful not to repeat such information outside of the meeting.

## 2. Duties

**The Building Communities Committee will advise, oversee and support the implementation of the following areas, collaborating with other Committees, Panels, Divisions, Editorial Boards and relevant staff members to:**

- Identify national and international networking opportunities for our members among existing and new communities and communicate them effectively to the membership.
- Increase the involvement of groups of microbiologists who are not currently well represented in our activities, such as clinical, health-related and industrial microbiologists.
- Increase engagement and collaboration between our members and other societies, industry, funders, educators, regulators and decision makers.
- Ensure Society content covers the breadth of microbiology and is relevant to members, potential members, the wider microbiology community and other key stakeholders including students, teachers, journalists the wider public and relevant bodies and organisations.
- Ensure the Society's activities and resources are scientifically accurate and targeted to reach appropriate audiences.
- Ensure there is close collaboration with other Committees and organisations on areas of common interest.
- Ensure relevant advice and recommendations are properly reported to Advisory Council.

## 3. Meeting schedule

The Committee will meet twice a year in May and October.

The October meeting will be held jointly between all three of the Society's Strategic Committees.

In addition, the Committee will communicate between meetings by email and other methods to ensure sufficient reporting mechanisms to Advisory Council.

## 4. Membership

The membership requires a balanced portfolio of skills and knowledge to be able to fully support and engage with the remit of the Committee. The Committee comprises of:

- Two co-Chairs; *ex officio* members of Advisory Council and each to Chair either the Scientific Conferences Panel or Publishing Panel.
- Chair-Elect of the Scientific Conferences Panel; sought from the membership by an open call for expressions of interest and approved by Advisory Council. By convention, this rotates around the interests of the four Divisions and requires having served in recent years on one of the Divisions and would therefore be advertised accordingly. The Chair-Elect of the Scientific Conferences Panel will usually become co-Chair of the Committee.
- Chair-Elect of the Publishing Panel; sought from the membership by an open call for applications and approved by Advisory Council at least a year before the end of the current co-Chair's term). The Chair-Elect of the Publishing Panel will become co-Chair of the Committee.
- One elected member of Advisory Council; this may reshuffle among the Elected Members of Advisory Council each year.
- Up to 5 members elected from the membership of the Society; applications are sought from the membership annually by an open call.
- One representative from each of the Society's Divisions, typically the Chair of the Division.
- The Society's Infection Science Representative(s).
- One representative from each of the Society-owned journals, typically the Editor-in-Chief.
- One representative from the Early Career Forum Executive Committee, who serves for two years.
- One representative from the Members Panel.
- One (or more) co-opted external professionals with relevant expertise; an important role of co-opted members is to provide constructive challenge.
- Ad hoc advisors can be requested to attend certain meetings to address specific knowledge requirements or assist in certain projects.

**The terms of office are as follows:**

- Co-Chair and Chair of Publishing Panel = 3 years
- Co-Chair and Chair of Scientific Conferences Panel = 2 years
- Chair-Elect, Scientific Conferences Panel = 2 years
- Chair-Elect, Publishing Panel = 1 year
- Elected members = 3 years
- Representatives from Divisions = 2 years
- Infection Science Representative(s) = 2 years.
- Representatives from Society journals = 3 years
- EC Forum Executive Committee representative = 2 years
- Co-opted external professionals and ad hoc advisors = duration as required

If a current member of the Committee is nominated as Chair-Elect, their term can be extend accordingly.

**Quorum:**

One co-Chair and nine members of the Committee must be present at any of its meetings to make the proceedings of that meeting valid.

**The following report into the Building Communities Committee:**

- Publishing Panel
- Scientific Conferences Panel

The Committee is supported by the Head of Scientific Programmes.

Other members of staff attend meetings as appropriate.
