

DISCOVER WAYS THE SOCIETY COULD CONNECT YOU WITH OTHERS WORKING IN INFECTION SCIENCE.

In the COVID19 and AMR era it is increasingly important to ensure accurate knowledge exchange across the Infection Sciences.

Tina Joshi, Chair-Elect of FIS

TALK TO US

Help us discover ways to further engage you with the infection science community. Talk to us or submit ideas on how we can bring together those with shared scientific interests to hear about the latest research in your field.

Email: info@microbiologysociety.org

USE US

JMM and Microbial Genomics Scientific Seminar Series

Our monthly scientific seminars are designed to support the dissemination of knowledge and networking opportunities amongst prioritised microbiology communities.

Sign up, for free: microbiologysociety.org/MicrobioSeminars

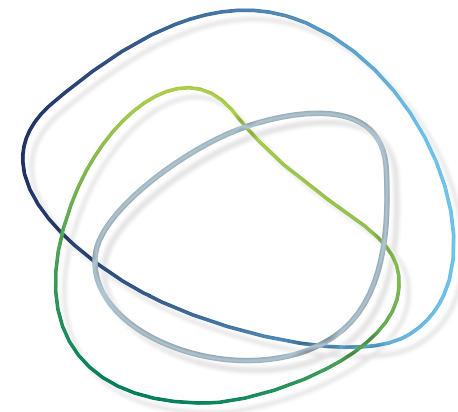

Society journals and collections

Access reputable scientific publishing spanning 75 years.
microbiologysociety.org/OurJournals

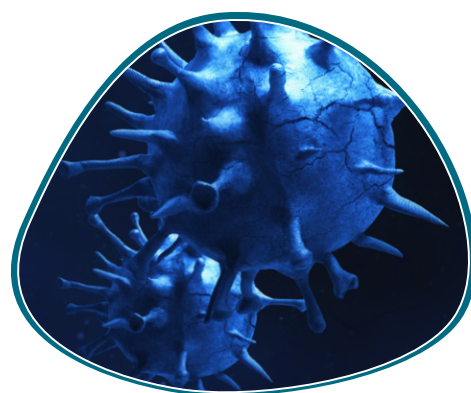

Content Hubs

Access the latest content from our SARS-CoV-2 and COVID-19 Hub, including podcasts and blogs.
