

Previously covered Focused Meeting topics

20-21 March	Host-Pathogen Interactions: From Animals to Humans and Back Again
21-22 August	Host-Microbe Dialogue
1-2 September	Emerging Challenges and Opportunities in Soil Microbiology
17-18 November	Infection Models to Investigate Microbial Disease and Antimicrobial Therapies

17-19 June	Microbial Interfaces
7-8 September	International Meeting on Arboviruses and their Vectors
7-9 September	International Meeting on the Invasive Fungus
9-10 November	Industrial Applications of Metal-Microbe Interactions

30 June-1 July	Host-Pathogen Interactions
1-3 August	Molecular Biology of Archaea 5
1-2 September	Exploring the Microbe–Immune System Interface
5-7 September	The Dynamic Fungus
27-29 September	Molecular Biology and Pathogenesis of Avian Viruses

Microbial Resources for Agricultural and Food Security
ISSY33 - Exploring and Engineering Yeasts for Industrial Application
Antimicrobial Resistance and One Health
15th International Conference on Pseudomonas
2nd International Meeting on Arboviruses and their Vectors (IMAV)
British Yeast Group 2017: The Versatility of Yeasts

21-22 June	Microbes and Mucosal Surfaces
27-29 June	British Yeast Group 2018: Embracing Variation
2 July	Emerging Zoonoses and AMR: A Global Threat
3-4 September	Molecular Biology and Pathogenesis of Avian Viruses
10-14 September	9th International Symposium on Testate Amoebae (ISTA9)
1-2 October	Microbiomes Underpinning Agriculture

13-14 June	Anaerobe 2019: Changing Perception of Anaerobic Bacteria; from Pathogen to the Normal
26-28 June	British Yeast Group 2019: Discovery to Impact
5-6 September	IMAV2019: International Meeting on Arboviruses and their Vectors
24-25 October	Microbes in Medicine.: A Century of Microbiology at Trinity College Dublin
29 October	Antimicrobial Drug Discovery from Traditional and Historical Medicine

All meetings scheduled for 2020 were cancelled or postponed due to the outbreak of COVID-19.

Candida and Candidiasis 2021
Anaerobe 2021: The Microbiota and Beyond
Avian Infectious Diseases 2021
British Yeast Group 2021: The Future of Yeast Research
