1. Terms of Reference

Purpose: Reporting to Advisory Council, the Impact and Influence Committee is responsible for advancing the understanding and impact of microbiology by highlighting the global importance of the work of our members and other microbiologists to support the Society's three main strategic objectives:

- 2. By harnessing local knowledge for worldwide impact, we will advance understanding of microbiology and champion the contribution made by microbiology, our members and their work in addressing global challenges.*

By recognising global differences in accessing opportunities at the Microbiology Society, we will build on existing strong financial and governance foundations to reinforce long-term sustainability and resilience through diversifying income streams, increasing efficiency and ensuring robust mechanisms for decision-making, monitoring and evaluation.*
