#Microbio23

Over the years the Microbiology Society and our Annual Conference have grown from strength to strength, with our Conference programme bringing together influential researchers, academics and scientists from all areas of microbiology.

As we continue to innovate with initiatives like our Open Access transformation, increased focus on industrial microbiologists and members working in infection science, we are excited to see a renewed energy from our delegates and those working within the microbiology community.

With strong support from our members and the scientific community, we are excited to deliver Annual Conference 2023. As always, the industry exhibition will play an important part and is the perfect opportunity to connect and network with a targeted audience.

Annual Conference 2023 will take place at the ICC Birmingham and is set to welcome over 1,400 delegates. It will be an energetic, friendly and engaging three-and-a half-days, and on behalf of the Microbiology Society, I look forward to welcoming you to this event.

Peter Cotgreave
Microbiology Society Chief Executive

About the Microbiology Society

WE ARE WELCOMING to anyone interested in microbes, their effects and their uses. Our reputation as a friendly, nurturing and approachable community, driven by the experience of a diverse set of members, is extremely important to us.

WE ARE TRANSPARENT and professional in everything we do. We believe that decisions should be informed by evidence and expertise, and that scientific methods form a robust and dependable way of developing reliable evidence.

WE ARE DEDICATED to our charitable aims. We are not for profit, and strive to ensure that all our resources are applied optimally to furthering the science of microbiology and its application.

Passport to Prizes

A fun, engaging and entertaining way to ensure you maximise the opportunities to meet and network with people from all areas of microbiology, and generate one-to-one conversations.

To take part in the Passport to Prizes competition, you will simply need to set a question and provide a prize. The prize is offered at your discretion, but examples have included a box of chocolates, Amazon vouchers and a coffee machine.

Your question, exhibition stand name and number will then be part of a 'passport' card given to every attendee in their delegate bag. Delegates will then visit your stand to find out the answer.

Lunch and refreshments

-  Inclusive lunch and refreshments for all exhibitors and delegates.
-  Inclusive drinks reception and poster sessions within the exhibition hall.
-  If you would like to extend your networking, tickets for our social programmes can be purchased separately.

Variation and Waiver

14.3 No variation of the Contract shall be effective unless it is in writing and signed by the parties (or their authorised representatives).

14.4 A waiver of any right or remedy is only effective if given in writing and shall not be deemed a waiver of any subsequent breach or default. A delay or failure to exercise, or the single or partial exercise of, any right or remedy shall not waive that or any other right or remedy or prevent or restrict the further exercise of that or any other right or remedy.

If such modification is not possible, the relevant provision or part-provision shall be deemed deleted. Any modification to or deletion of a provision or part-provision under this condition shall not affect the validity and enforceability of the rest of the Contract.

14.10 The provisions of this condition shall not apply to the service of any proceedings or other documents in any legal action.

The Microbiology Society is a membership charity for scientists interested in microbes, their effects and their practical uses. It is one of the largest microbiology societies in Europe with a worldwide membership based in universities, industry, hospitals, research institutes and schools.

Our members have a unique depth and breadth of knowledge about the discipline. The Society's role is to help unlock and harness the potential of that knowledge.
