General Secretary’s Group

1. Terms of Reference

Purpose: Reporting to Council, the General Secretary’s Group will act as a unified group in bringing reports to Council from the Building Communities Committee, the Impact and Influence Committee, the Sustainability Committee and the Early Career Microbiologists’ Forum Executive Committee in a coherent way, with proposals having been examined from all angles simultaneously to support the Society’s three main strategic objectives:

1. Through a better understanding of the diversity of our members, we will enable them to strengthen their existing relationships and gain access to new communities, unlocking the potential for international collaboration and global knowledge exchange.

2. By harnessing local knowledge for worldwide impact, we will advance understanding of microbiology and champion the contribution made by microbiology, our members and their work in addressing global challenges.

3. By recognising global differences in accessing opportunities at the Microbiology Society, we will build on existing strong financial and governance foundations to reinforce long-term sustainability and resilience through diversifying income streams, increasing efficiency and ensuring robust mechanisms for decision-making, monitoring and evaluation.

The Society is committed to creating an inclusive culture that supports equality and diversity and fully reflects both its membership and the global microbiology community across all protected characteristics. The Society seeks to actively encourage all practices that reflect a diverse society.
